

Water is life.

Drink it Pure.

PURISSIMA UNC -36PF

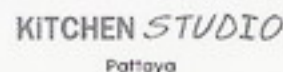

Undercounter Model , combines sediment and Carbon filtration with Reverse Osmosis technology to create a broad spectrum of water treatment process that can be neatly installed in small space. Manufactured with NSF approved plastics and the finest materials available , each systems is 100 % tested, sanitized and hermetically sealed.

UNC 36PF

is equipped with a high performance 1/3 HP pump to ensure constant feed water pressure , which enables the Reverse Osmosis water purification system to perform at the optimum condition, and a 17 liter pressure tank to ensure instant supply at normal operation condition. High performance membrane enables the production of quality pure potable drinking water at very reasonable cost, and elimination handling and storage of bottled drinking water.

The comparison of Chemical process

$$\left(1 \text{ Micron} = \frac{1}{100} \text{ IN} \right)^3$$

Bacteria 0.4-1.0 Micron
 Virus 0.02-0.04 Micron
 Heavy Metal 0.001 Micron

Purissima TFC
 Membrane 0.0001 Micron

Deluxe 3- Stage Reverse Osmosis

SPECIFICATION

- : Sediment 5 Micron 2"x10"
- : Precarbon 2"x10"
- : T.F.C. R.O. Membrane 50GPD
- : Storage Tank Hot water 2 Liter & Cold water 15Litter
- : John Guest Fitting
- : Dimension 340(W)x320(D)x1180(H)
